PROJECTS

Humanitarian Finance Forum

Description :

Humanitarian funding allocated to specific emergencies. Government donors also have preferences for where they fund, based on range of strategic priorities. To develop this website, I used the Next.js framework, the React-form hook and drop zone libraries, and the CK editor library.

Roles & Responsibilities :

Developed using Next.js.

I worked on Form Validations with React-Form Hook with YUP.

Picktime.Timezone

Description :

- Creating & managing Events.
- Creating events, comparing that events time with various timezones as per the UTC Timezone.
- Showing the details of events.
- Remaining that events with the help of set remainder functionality, e.t.c.

Tools : Java, Spring MVC, HTML, CSS, e.t.c.

Ecommerce Website – FastKart

The FastKart is a web application that is used for purchasing products online. It was developed using Next.js with Sass and VS code. Also used libraries like React slick and React-Form hook.

It was compatible with smartphones, tablets, and Laptop and Computers , related it the company's Operations and industry trends.
